WEEK

SECRET

4. SECURITY (cont'd)

a. Baden-Wuerttemberg

(S) The security of Johannesstrasse 13, STUTTGART, is the subject of much internal discussion in LfV Section III. Most Section III members are displeased with the rapidity with which the move was made and no plans were made to install a guard or alarm system and there is no immediate plan for a night guard. The custodian resides on the top floor, and can maintain little observation of what might occur on the lower four floors during the night. LfV Director PICHT has requested the LfV to make a security survey of the new quarters at Johannesstrasse 13 so that measures can be recommended, assuring the security of the installation.

5. TRAINING

a. Baden-Wuerttemberg

(S) The LfV is giving a 6-week course beginning 3 October 1955, to which Lower Saxony, Bavaria and Baden-Wuerttemberg have been asked to send three persons. It will be at least of LfV directed training. Future courses will last 3 months. Most of the LfV stated that they cannot spare large numbers of persons for such courses. LfV Director PICHT said that he could not release more than one man for 3 months. Friedrich GOEBERICH, FREIBURG I/O Chief; Kurt HOMER, STUTTGART I/O Chief; and Hans-Gottfried LINDOW, Deputy Chief of the Section IV Card Registry, are scheduled to attend this course from the local LfV.

b. (S) Attention is directed to Annexes B and C, which give the Curriculum and Program of Studies at the School for the Protection of the Constitution. The 6-week lecture course was tentatively scheduled to begin on 15 September 1955 and was to be opened for advisers and experts (Sachbearbeiter and Referenten). It was intended that the instructors be recruited from the ranks of the LfV. At this time, it cannot be determined whether this school is the referred to in the preceding paragraph.

6. SUPPLY, EQUIPMENT AND TRANSPORTATION

a. Baden-Wuerttemberg

(C) (1) In LfV vehicle with license number WZ-71/31 (a tan, export model Volkswagen), driven by Section III-G Chief WILLY WALDBAUER, was in an accident in LOERRACH in early August. A motorcycle tried to pass WALDBAUER on the right, though WALDBAUER had signaled a right turn. Cover plates were on the car at the time, and WALDBAUER explained this, privately, to the investigating policeman.

(C) (2) A total of 15 vehicles, including the official "Peenator" sedan assigned to LfV Director PICHT, are used by the LfV. The LfV estimates that a vehicle used by an agent travels at least 3,000 km. per month and bases maintenance costs on this.

SECRET

SECRET

6. SUPPLY, MOVEMENT AND TRANSPORTATION (cont'd)

a. Baden-Wuerttemberg

(C) (S) All LfV photo equipment is purchased at Detehaus Weissaecker, STUTTGART, Tuebingerstrasse 1.

b. Rheinland-Pfalz

(C) Station TUG Chief Kurt LAHR is the owner of a Borgward automobile equipped with an 1300 cc, diesel engine.

c. Hesse

(S) To purchase needed supplies and also to pay informants for the remainder of the fiscal year, Mr. Josef HINZ, Custodian of Funds for the Hesse LfV asked all section chiefs to reduce requests for office supplies, photo paper, etc. Each section chief must account for each piece of photo paper used. Of funds are included in the Budget which was cut by the Finance Ministry.

7. ADMINISTRATION

a. Bremen

(S) Rudolf HILGER, Material Chief, recently stated that though the LfV is supposed to receive DM 60,000 per year for financing operations, the appropriation has been cut to DM 54,000. The LfV finds it difficult to meet its budget, and it is practically impossible to broaden operations, since the appropriation also includes confidential funds.

b. Berlin

(S) Personnel administration of the LfV Berlin is handled by the Office of the Senator of Interior, against the wishes of the LfV Chief, Heinz WIECHMANN. The Senator of Interior, Joachim HIRSCHLITZ, is interested in the LfV, Berlin and its activities but, above all, he is interested in the SPD. His subordinates are interested in placing reliable SPD men in the LfV and thereby infiltrate LfV Berlin.

c. Baden-Wuerttemberg

(S) (1) To improve the financial situation of LfV employees, LfV Director Hans Reinhold PLOTT has gained Interior Ministry approval for promotions from pay grade TO 1 IX to VIII for five card registry (Section IV) secretaries. He is awaiting additional promotions from TO 1 grade VIII to VII.
